

Company Profile · 2026

We Build More Than Websites.

For businesses ready to launch, grow and scale online. We build the website and the systems behind it, so the business runs with less of you.

2016

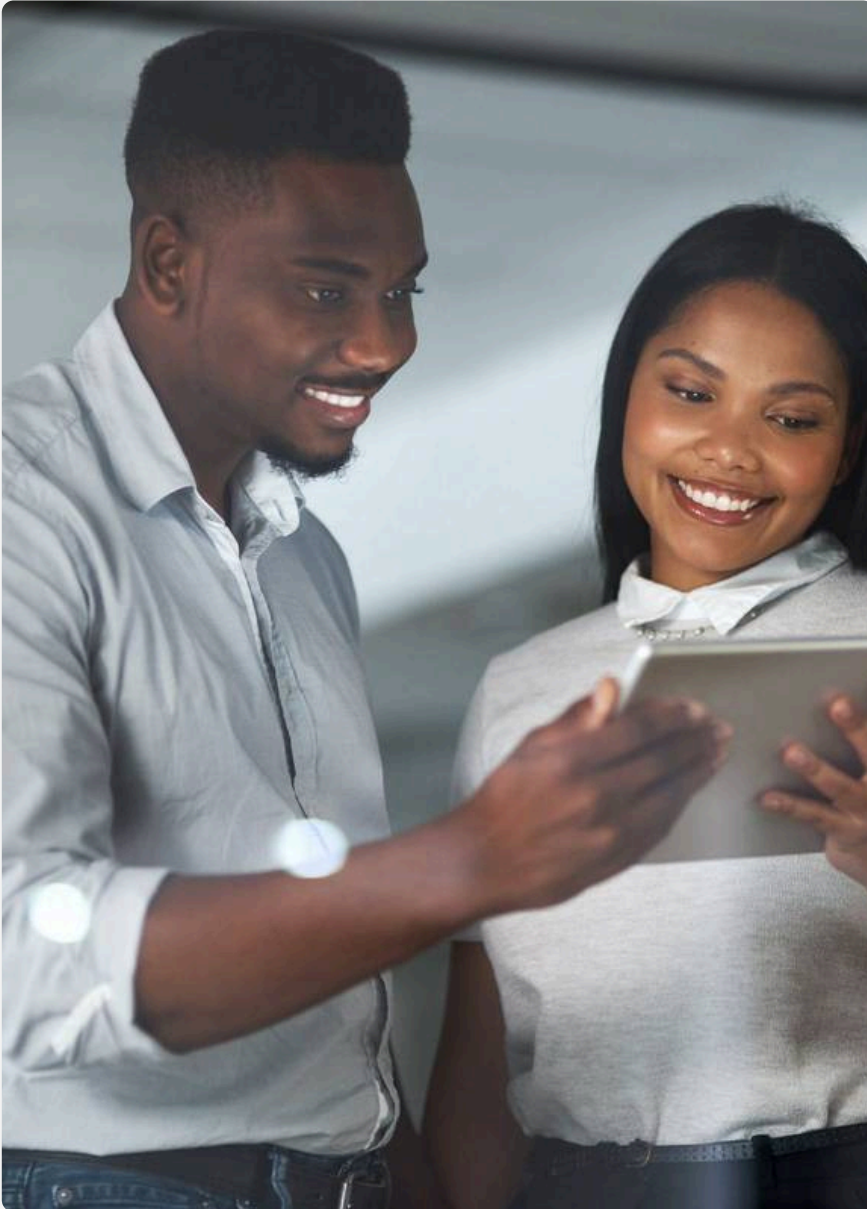

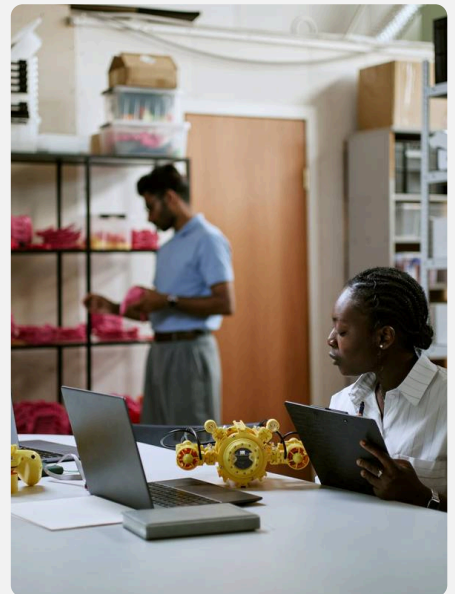

Building since

100+

Namibian businesses served

Built for Namibian Business.

Since 2016 we have built platforms that help Namibian businesses connect with customers, sell smarter and simplify how they run. Our mission is to give homegrown businesses the digital tools that drive growth and free up time for what matters most. A website is where we start.

We are Namibian.

Built in Windhoek, for the way business works here.

We build systems.

Bookings, payments and follow-ups that keep running after launch.

We provide aftercare.

Care plans, monthly reports and ongoing technical support.

A Website Is Where We Start.

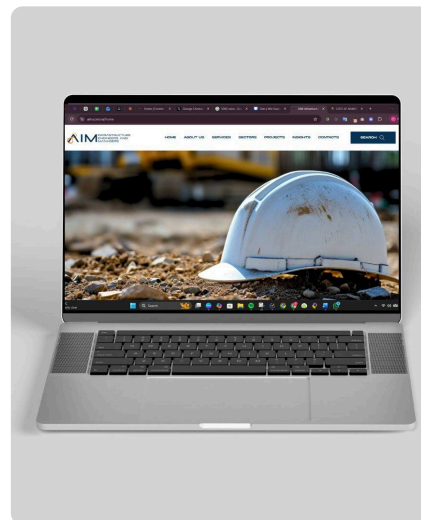

Websites are the only thing we sell on their own. Everything else attaches to one. Published prices, in Namibian dollars.
